There is only **ONE** Metal & Steel / FABEX Middle East Exhibition....

Metal & Steel Middle East has firmly proved itself as the foremost exhibition for Steel, Steel Fabrication and metallurgy industry in the Middle East & Africa (MENA). In its Eighth year, it will again cover the full spectrum of the industry along side with FABEX Middle East 2017.

In the Middle East, steelmaking is expected to be predominantly EAF-based and DRI, which are expected to contribute to reducing import dependency. The region's production capacity is projected to increase to 69.5 million tpy by 2017, while the construction sector is expected to maintain its mild but steady recovery momentum.

2016 edition ended with a 7% growth in exhibitor numbers and a 11% growth in floor space compared to the previous event, and recorded a constant number of visitors. It has been attracted 245 exhibitors from 22 Countries put a wide range of new products and technology on display, 7124 professional visitors and buyers' delegations from 18 countries. The busy atmosphere at the show reflects the positive overall.

Metal & Steel Middle East with FABEX Exhibition offers an excellent results-driven opportunity that delivers a real return on investment and business benefits. It's also the most cost-effective way to reach the greatest number of decision-makers in the shortest space of time.

Book Today For Tomorrow's Success!

of visitors were
decision makers

Metal & Steel Saudi Arabia: Innovation, quality and business on a high scale

The indispensable meeting point of the GCC steel industry, Metal & Steel Saudi Arabia, the 6th International exhibition for steel, steel fabrication and metallurgy industry, will be organized and co-located with FABEX ARABIA 2017 during April 30 - 3 May 2017 at RICEC- Saudi Arabia, putting on display new product launches, live demonstrations, technology innovations and professional expertise.

Increasing figures of the exhibitors and visitors every passing year prove that this event is the first choice of the industry professionals. These magnificent growing rates are not coincidence. From past to present the exhibition has been continuing to be the meeting point of the exhibitors seeking for the latest technology , products and qualified visitors in order to provide them accessing to new markets.

Strong Economies = Future Opportunities

The Saudi Arabia Steel Industry Forecast 2017 report by research firm RNCOS estimates that the sector will grow at a compound rate of 11.7% between 2013-17. Further to Saudi Arabia's steel consumption will see double-digit growth over the next five years fuelled by demand from infrastructure projects and growing investment in real estate.

Riding high on the success of the previous editions, Metal & Steel/ FABEX Saudi Arabia 2017 are ideal for all looking to do business in the GCC region and Saudi Arabian market in particular. Whether you are looking to meet new contacts, reinforce existing partnerships or launch new products or technology, Metal & Steel/ FABEX Saudi Arabia can meet your needs.

Stepping into the FIFTH glorious year of 2016 show overview
